	OPEN	Translation Seed Grants	The seed funding is open to all members of The Hopkins Centre. All applications must show evidence of a researcher and clinician collaboratively working on the project.
	TBC	BIBS Symposium	
	OPEN	Summer Scholar Program 2019	

We will be further developing online resources via the website to expand our capacity and translation deliverables. Such as VMR, Surveys, Ethics Procedures, data storage, interviews/techniques, systematic literature reviews, developing sound research questions, critiquing published research, writing publishable journal articles and how to source funding. All of these resources will be developed and available to our membership base via the website over the course of 2018.

Please let us know if there is an area of interest to you that you would like covered in this research capacity suite of resources.
